***Drainage Utility Fee**

a. Each single family residential unit and residential duplex shall be charged the following monthly "Drainage Utility Fee" as the established base rate for one Equivalent Service Unit (ESU) equaling 4,083 sf of impervious surface.

b. Each developed multi-family residential parcel, commercial parcel, and other non-residential parcel shall be charged a monthly Drainage Utility Fee as the multiple of the base rate set forth in Section 1, based upon the number of ESU's on the property and the measured impervious surface area. The number of ESU's on any particular developed parcel shall be determined by measuring the amount of impervious surface on the parcel (in square feet) and dividing that number by the designated base ESU of 4,083 sf. The actual monthly Drainage Utility Fee shall be computed by multiplying the total ESU's for the parcel by the monthly rate set forth in Section 1. For example, a parcel with 25,000 square feet of impervious surface area shall pay a fee of \$42.86 per month (25,000) 4,083=6.123 then 6.123X\$7=\$42.86.

NOTE:

All deposits are cumulative and adjustments will be made at building permit issuance or plat recordation unless developer withdraws application(s) or approvals expire.

D6. Transportation Utility

Transportation Utility Fee \$ 3.00

a. Single Family Dwelling. As specified in the latest edition of the Institute of Transportation Engineers (ITE) Trip General Manual a single family dwelling generates 9.5 trips/day. Accordingly, each single family dwelling shall be charges the following monthly "Transportation Utility Fee" as the established base rate for one Equivalent Residential Unit (ERU) equaling \$3.00 Month

b. Two-Family Dwelling and Multiple-Family Dwelling. Each two-family and multiple-family dwelling use shall be charged a monthly Transportation Utility Fee as the multiple of the base rate established in sub paragraph D6.a (or \$3.00) and based upon the number of ERU's on the property as measured by the size of the use and the trips generated thereby as set forth in the ITE manual for such use. The actual monthly Transportation Utility Fee shall be computed by multiplying the total ERU's for the use/parcel by the monthly rate of \$3.00

c. Non-Residential Uses. Each and all non-residential uses shall be charged a monthly Transportation Utility Fee of \$1.53 and based upon the number of ERU's on the property as measured by the size of the use and the trips generated thereby as set forth in the ITE manual for such use. The actual monthly Transportation Utility Fee shall be computed by multiplying the total ERU's for the use/parcel by the monthly rate \$1.53. For example, a parcel with 25,000 square foot miscellaneous retail building shall pay a monthly fee of \$366.00 [that is: ITE trips generated for said use per 1,000 square feet = 46.12 and multiply this number by 25 (i.e. the total s.f. of 25,000/1,000)---or 46.12 X 25 - which equals 1,156.25 trips; then calculate the number of ERUs for the same by dividing the 1,156.25 trips by the trips in one ERU (or 9.5 trips), which equals 122 ERUs; then multiply the 122 ERU figure by \$1.53, which results in a monthly transportation utility fee of \$186.66 for the 25,000 s.f. building in this example].
